

EIS Indiana Environmental Rules Loose-leaf Service

The **EIS Indiana Environmental Rules Loose-leaf Service** includes: (1) the 3-volume up-to-the-minute **EIS Rules Starter Set** (8.5 x 11, 3-hole punched) plus (2) the **EIS Monthly Update Service** (delivered by mail or electronically).

Indiana's environmental rules change monthly. As an environmental professional, you must have at your fingertips the complete text of Indiana's current environmental rules. The best way to keep on top of these regulatory requirements is through the **EIS Loose-leaf Service**:

1. The **EIS Rules Starter Set** includes the complete current text of the rules of the Air Pollution Control Board, Water Pollution Control Board, Solid Waste Management Board, UST Financial Assurance Board, and the Office of Environmental Adjudication. It is designed for insertion into three 2-inch C-ring binders. The **Starter Set** is \$150.
2. The **EIS Monthly Update Service** is designed to constantly update the **EIS Starter Set**. A one-year subscription to the **EIS Monthly Update Service** is \$200 (with delivery by U.S. Mail), or \$120 (with electronic delivery).

This service is available NOW. We have been publishing the **EIS Rules Loose-leaf** and **Update** for over five years.
